WHO WE ARE

The Commercial Space Federation (CSF) is the leading trade association representing the commercial space industry. We serve as the industry's voice to policymakers in the U.S. government, international governments and organizations, the media, and the public, advocating for policies that support growth and innovation in the space economy. CSF's members comprise multiple sectors of the commercial space industrial base, including launch and reentry operations, commercial LEO services, remote sensing and analytics, satellite services, spaceports and infrastructure, commercial lunar and space exploration, space situational awareness (SSA), and space supply chain services.

CSF GOVERNING COUNCILS

- Launch & Reentry Council (LRC)
- Commercial LEO Council (CLC)
- Spaceports and Infrastructure Council (SIC)
- Satellite Operator/SSA Council (SSC)
- Space Exploration Council (SEC)
- Remote Sensing Council (RSC)
- Space Supply Chain Council (S2C2)

CSF GUIDING PRINCIPLES

The U.S. Government must:

- Maximize reliance on the domestic commercial space industry—integrate and incentivize commercial space solutions rather than building its own.
- Be a smarter buyer — promote full and open competition and use fixed-price contracts and procurement options appropriately.
- Reduce or remove unnecessary, counterproductive regulations — enable growth in the commercial space sector and main U.S. Leadership.

WHO QUALIFIES

Organizations contributing to the growth of the commercial space industry, including:

- Satellite Service Providers
- Satellite Manufacturers
- Launch & Reentry Providers
- Spaceports & Service Providers
- In-Space Assembly & Propulsion
- Remote Sensing & SSA Providers
- ARTEMIS & CLPS Contractors
- Research & Engineering
- Any Commercial space Company

MEMBERSHIP BENEFITS

- **Council Participation** – Join CSF Industry Councils to shape industry priorities.
- **Business Development** - Network with top industry executives and government leaders.
- **Policy Influence** – Provide input on regulatory, safety, and strategic initiatives.
- **Government Outreach** – Engage with Congress, agencies, researchers, and other stakeholders.
- **Advocacy Support** – Help drive policy and funding for commercial space initiatives.
- **Exclusive Access** – Receive special invitations to CSF-hosted events.

MEMBERSHIP DUES

- Membership on 1 Industry Council — \$8,000 annual dues
- Each Additional Council — \$4,000 annual dues
